Locating Application Submission Errors

REFERENCE GUIDE

FireLight prompts you to complete all required fields prior to Signatures and Submission. Firelight will not let you move onto the next step unless all required fields are complete. There are two options for identifying missing required fields: the Percentage Status Indicator and the Page List.

Status Indicator

1. Status Indicator

You can use the Percentage Status Indicator to view the application's completion percentage. Click the **Status Indicator** to view the Errors List.

| FINANCI | AL Autumn Fixed Indexed Annu | Auto Save Enabled | Home Other Actions - | Open Ac Er | TOTS | |

Page List

1. Page List

Another way to locate application submission errors is by clicking **Page List.**

2. Errors

The Page List allows you to view all forms or pages with a required field. Any form or page displaying a red warning icon A has required fields with missing information. Simply, select the page from the list.

3. Show/Hide Errors

Once on the page with the missing field, click **Show/Hide Errors** to turn on the Required Fields notifications.
